As Mario began, I asked about the “stain”. His head dropped. I said why, He said, I have to hire a helper because you have to “stain” before they are put up. Again, something I did not know, so this added more time to the renovation. Mario came back with a brochure of “stain” options from Home Depot. I chose the color and then more material expense was paid. I have lived in Oak Hollow Park over 8 years. Because my home is a corner lot, I feel some pressure to make sure the corner is kept up. The big oak tree did it's damage over the past 30+ years, now I will try to fix it. My property is on a slight hill and unfortunately and I need to get my yard leveled.

Leveling the yard and rocks are the next renovation project. Mario Ortiz will be back in July-August, to add the Phase II of the fence on the other side of the house. I want to get rid of those hideous cinder blocks that are concreted together on the other side. Again, doing it in phases for the cost savings. If you interested to talking to Mario Ortiz his number is 210-910-8440. You know how it goes, the total fence replacement job was going to take 4 days, but with the rain drenching down, it took longer, very glad I am patient.”

MAY USHERS IN 2022 “SAFETY SEASON”

Although June is National Safety Month, May boasts several national awareness and preparedness observances: Motorcycle, Bike, Youth Traffic and Child Vehicle Seat Safety; Water and Safe Boating; Building and Electrical Safety; Slip/Fall Prevention; Police and EMS Weeks; Trauma Awareness; Heat Stroke Prevention; and a range of personal health, fitness and older Americans information and recognition campaigns.

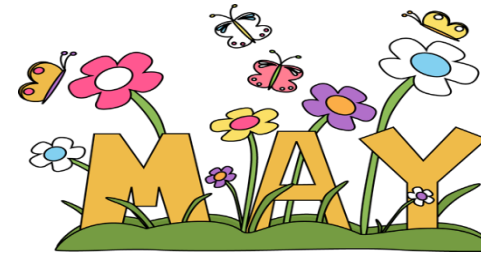

Here in Oak Hollow Park our neighborhood preparedness effort formally kicks off May 15 with a 2 p.m. American Red Cross home safety basics course that residents can attend in-person or online. The location is To Be Determined (TBD), so keep an eye on the entrance signs and Facebook- Oak Hollow Park Families.

We'll follow up that course in late May or early June with instruction on food and medicine readiness, and an American Red Cross *Sound The Alarm* smoke alarm distribution online sign-up drive for OHP homes in need of replacements. If you are interested in a bigger step - OHP Neighborhood Readiness Team membership - you'll have an opportunity to sign up after the May 15 class, or you can mail me now at: OHPNA_2VP@gmail.com

THE OAK HOLLOW PARK PEBBLES

Oak Hollow Park NEIGHBOR OF THE MONTH

CONGRATULATIONS LEVI WEST!

As I’m sure many of you already know, Levi was the recipient of this year’s OHPNA Scholarship! Viewing his letters of recommendation from his teachers and faculty at Great Hearts Northern Oaks, all they did was rave about him. They shared that he is an empathetic and earnest young adult, and concerned for his fellow man. This was evident in his being a founder member of the school’s basketball and cross-country programs, mentorship program and the Griffins United Club. In addition, I’m sure many of you have seen personally the dedication he has here to Oak Hollow Park, helping in the effort to paint the fire hydrants to beautify the neighborhood. With these factors in mind, Levi was our first choice in receiving this

year's scholarship. We are positive that these achievements are only the beginning, and that Levi is destined for greater success when he heads off to Abilene Christian University this fall!

NEW OHP ARTISTIC COMMUNITY

Hello Fellow Artists and Crafters! I am a basket weaver preparing my creations to sell at Helotes Market Days. My next-door-neighbor-on-the-corner will also be displaying her work at Helotes. Vangie creates beautiful gourd art which she sells primarily through Etsy. In talking with her, I wondered what other artists we have in our OHP community. If you are interested in networking with artists, taking classes, or just enjoying the company of other creative OHP people, let us know at pjwaiterejoice@gmail.com. Blessings!

ARE YOUR KIDS LOOKING TO VOLUNTEER?

Mrs. Flora West is leading a volunteer effort to deliver the monthly Pebbles. For planning purposes, the Pebbles are usually printed the first week of, but no later than the second Monday of the month. I've delivered the Pebbles by myself to the whole neighborhood in less than 3 hours, so not really time intensive. If you are interested in helping out, please give Flora a call at 830-734-3865.

MY NEW FENCE (By Debra Ruiz)

"Before I could start on the new fence, I had to have the big tree removed. The tree had to be removed as it had already cracked the foundation in the backyard, and I did not want it to hit the AC unit or the home. The backyard foundation was broken up as well and removed. All this before the "fence remodel".

Next the fence looked really bad and sad. Once the tree was removed, the pickets (fence boards) were falling off and shredding apart. As a single mom, I did not call any professional companies.

I have had some success using the "Facebook Marketplace". So, the "fence" bids began. I had 4 contractors booked in one weekend, just for the free estimate.

I was getting different stories about how the tree that was removed and was going to be an issue. It was frustrating. My original goal was to straighten out the fence and put a L shaped fence near the AC unit. Glad I did not! There were still too many tree roots underneath, that would have been a bad idea.

Fortunately, I met Mario. My Angel. I showed him the photos of a fence that I liked and I asked for his opinion. He drew a picture and took notes. Mario texted me an estimate for steel posts and cedar. He then told me where to buy the materials. I asked if I could meet him at the place to pay in person. He did not mind. To me this was the honesty part, the other contractors wanted cash first for the materials and you pray they show up the next day. I suggest paying in person with the contractor.

Please know, steel and cedar are at the highest prices right now. A typical wood fence is less expensive. However, I did not want to cut corners, I knew what I wanted. I wanted the black posts to match the roof color and the front door, (the house trim will soon be painted black).

At "Triple S Steel", Mario showed me how the posts would look, (after they are painted). I remember asking "spray or brush". Mario replied "spray, never a brush". The displays at "Triple S" are very nice. Next we drove to "Home Depot" and hoped they have enough 8ft cedar posts. Again, a supply shortage.

I was happy the "Home Depot at Fair Ave", had what we needed. I paid for the materials. Please know, Mario is also a welder, so that is where his expertise comes in. Since I was paying more in material than labor, I only am doing phase one of the fence, as I call it.

IS SOMEONE KNOCKING AT YOUR DOOR?

Do you live on Pebble Bow? Are ResCare residents harassing you in the wee hours? No need to call 9-1-1, Non-emergency, etc. Let me know! I have direct contact with our SAFFE Officer, Sonny Kretzer. All HOA and neighborhood association presidents are the SAFFE liaison for their respective communities. But I do need as much info as you can give. Names and descriptions help immensely. I can relay that to Officer Kretzer and he can pay Trey, the ResCare manager, a visit to voice your concerns. My email is at the bottom of the Pebbles. Thanks in advance for your help!
